

Part 1

ASSESSING FITNESS TO DRIVE

Driver Health Questionnaire

The *Driver Health Questionnaire* is a screening tool to help identify conditions that might affect a person's capacity to drive safely. It is completed by the driver at the health assessment. The questionnaire is not a diagnostic tool and no decision can be made regarding the person's fitness to drive until a full clinical examination is performed.

The examining doctor will need to review the answers with the person to ascertain relevant detail and guide the clinical examination, including the conduct of additional tests.

Dishonest completion of the questionnaire may be an issue. Drivers are required to sign the completed questionnaire in the presence of the examining doctor as a declaration of the completeness and accuracy of the information. The doctor then countersigns. If the driver refuses to sign, the examination should not proceed.

The driver will also sign the declaration regarding disclosure of information to acknowledge that they understand and agree with how their health information will be used.

The form should be retained by the doctor and filed in the driver's medical record. For privacy reasons, it should not be returned to the requesting organisation, if there is one.

DRIVER HEALTH QUESTIONNAIRE

(to be completed by driver)

Driver information:

Surname:	Given name(s):
Address:	
Date of birth:	Phone:
Driver licence number:	State of issue:

Employer information:

Employer name:	
Address:	Phone:

Instructions for completion:

Please answer the questions by ticking the appropriate box. If you are not sure what a question means, leave the answer blank and the doctor will help you. The doctor will ask you additional questions during the examination. On completion of the questionnaire you will be asked to sign a declaration to confirm the accuracy of your responses.

Please bring with you to the assessment:

- A list of current prescription, non-prescription and complementary medicines
- Glasses/contact lenses and hearing aids if you use them
- Disease management plans (e.g. sleep disorder management plan, diabetes management plan)

Disclosure of health information:

Please read carefully and sign to indicate you understand how health information is reported, stored and accessed.

The details of your health assessment will remain confidential and will only be reported to the requesting organisation in terms of whether you meet the medical criteria for driving a commercial vehicle. The examining health professional retains all detailed medical papers including your questionnaire responses and the completed record of clinical findings. The examining health professional will provide you with the report form to return to the requesting organisation indicating your fitness for duty classification. Other than the above, your personal information will not be disclosed to any other person or organisation without your written permission, except when required by law.

You have the right to access your health records including those held by the examining doctor and the reports held by the requesting organisation.

ASSESSING FITNESS TO DRIVE

Clinical Assessment Record

The *Clinical Assessment Record* is a tool to guide the health assessment process. It provides a standard format for recording the results of the assessment and the reasons for the fitness to drive conclusions. The doctor records the results of the assessment and retains the form in the driver's confidential medical record. The doctor will then summarise the results in terms of the driver meeting the medical criteria on the *Fitness to Drive Report* form (see below).

For privacy reasons, the completed *Clinical Assessment Record* must not be forwarded to the requesting organisation, if there is one.
